

The *Fertility and Sterility*® continuing medical education program

INSTRUCTIONS FOR CME CREDIT

NEEDS ASSESSMENT: This supplement is intended to increase physicians' awareness of androgen production, current clinical data, and their relation to the female patient. This activity is designed for all physicians with a fundamental interest and knowledge in reproductive medicine, residents, researchers, clinicians, and educators alike.

OBJECTIVES: Upon completion of this supplement, participants should be able to demonstrate an increased knowledge of androgen insufficiency in women. Participants should be able to evaluate the clinical data and apply it to the care of their patients.

DIRECTIONS: The participant should, in order:

- read the objectives contained in this supplement,
- read the supplement,
- answer the 46-question multiple-choice post-test beginning on page S104,
- complete the registration on page S109,
- complete the evaluation form on page S110, and
- mail to the ASRM with payment.

The evaluation form provides each participant the opportunity to comment on the extent to which the education objectives were met, the quality of the instructional process, the

perception of enhanced professional effectiveness, the perception of commercial bias, and his/her views on future educational needs.

CREDIT/ACCREDITATION INFORMATION: This CME activity provides an opportunity to earn up to 3 Category 1 CME credits. This CME activity fulfills the Accreditation Council for Continuing Medical Education (ACCME) essentials. The American Society for Reproductive Medicine is accredited by the ACCME to sponsor continuing medical education to physicians. This activity is provided at a cost of \$15 for members and \$30 for non-members. The participant should retain a copy of the examination. A 70% passing rate must be achieved. Documentation of satisfactory completion and the correct answers will be returned to the participant. This credit is valid through April 2004. No credit will be given after this date.

For additional information, contact the CME Credit Office: American Society for Reproductive Medicine, 1209 Montgomery Highway, Birmingham, Alabama 35216 (Telephone: 205-978-5000; FAX: 205-978-5005; e-mail: asrm@asrm.com). Visit the ASRM website: <http://www.asrm.com>
